A semi-circular color calibration chart, often called a Munsell Color Services Lab chart, is shown. It features a wide range of color patches arranged in a fan shape, covering the visible spectrum from reds and oranges to blues and greens. A color calibration target, which includes a series of color bars and a grayscale step wedge, is placed over the center of the chart.

A collage of various colored and textured fabrics. The top row shows smooth, solid-colored fabrics in shades of yellow, orange, red, pink, blue, and grey. The middle row features a variety of textures, including a red and orange woven fabric, a grey and green knitted fabric, and a purple and grey woven fabric. The bottom row displays a mix of colors and textures, including a green and pink woven fabric, a blue and grey woven fabric, and a brown and purple woven fabric. The fabrics are arranged in a grid-like pattern, showcasing a wide range of options for clothing and accessories.
